(+63)9451356739
Malabon City, Philippines

PROFESSIONAL SUMMARY: Licensed Civil Engineer and Registered Master Plumber with a specialized academic foundation in Structural Engineering and practical site execution experience. Proficient in BIM/CAD and structural software, including Midas Gen, Midas Design+, Revit, and AutoCAD. Proven track record in ISO 9001-compliant document control, structural submittal review, quality assurance, and multi-disciplinary site coordination across commercial and residential developments.

WORK EXPERIENCE:

Junior Project Site Engineer - Victor Consunji Development Corporation
Assigned Project: **Magsalin Law Office, M Residences Mowelfund & Carmen Garden Villas**
Location: Katipunan Extension, Marikina City
May 2026 – Present

- Review and manage construction contracts, agreements, and project documents.
- Coordinate with senior project manager, site engineer/architect, CAD operators, and subcontractors. Monitor project progress and report delays, issues, and non-compliance.
- Handle petty cash requests and liquidation.
- Process invoices, progress reports, change orders, and project correspondence.
- Verify the final manhour report and wage expenses.

Project Engineer - R.M. Cabanela Construction Management Corporation
Assigned Project: **Narra Palm Resort and Villas**
Location: Newport World Resort, Mansion Boulevard, Pasay City
February 2025 – May 2026

- Coordinated construction projects, site supervision, and stakeholder management during execution.
- Conducted quality and safety inspections, ensuring compliance with project and industry standards.
- Managed document control, RFIs/RFAs, submittals, and drawings under ISO 9001 standards.
- Reviewed contractor cost proposals, progress billings, and procurement requests for payment approval.
- Coordinated with clients, consultants, engineers, and contractors to maintain schedules and resolve technical issues.
- Oversaw punch list closure, document tracking, and handover requirements for project completion.
