Malabon City, Philippines
Portfolio: lalainesln.github.io

PROFESSIONAL SUMMARY

Licensed Civil Engineer and Registered Master Plumber with experience in site inspections, contractor coordination and construction documentation. Skilled in coordinating technical submissions, punchlist rectification, material deliveries and billing follow-ups. Seeking site engineering and project coordination opportunities.

CORE SKILLS AND TOOLS

Coordination: Site Inspections, Trade Coordination, Punch Lists, RFIs/RFAs submittals, Material Deliveries and Billing Support
Workplace tools: Microsoft Excel, Word, PowerPoint; Google Docs, Sheets, Slides; Microsoft Project (preliminary schedules)
Academic software experience: AutoCAD, Revit, Midas Gen, Midas Design+

PROFESSIONAL EXPERIENCE

Junior Project Site Engineer | Victor Consunji Development Corporation
May 2026 - October 2026 | Marikina City
Projects: Magsalin Law Office, M Residences Mowelfund and Carmen Garden Villas

• Coordinated urgent material deliveries, negotiated dates with suppliers, updated site teams on delays and followed up with purchasing on pending purchase orders.
• Documented site inspection findings and prepared a preliminary repair schedule using estimated durations and foreman input on material availability.
• Assisted in managing site documentation, project records, and other project requirements.
• Checked supplier invoices against payable balances and coordinated purchase-order and claimed-amount verification with suppliers and purchasing.

Project Engineer | R.M. Cabanela Construction Management Corporation
February 2025 - May 2026 | Pasay City
Project: Narra Palm Resort and Villas, Newport World Resort

• Identified design conflicts through site inspections and contractor feedback; coordinated adjustments with the consultants and relevant trades.
• Checked RFIs/RFAs submittals for completeness, routed them to consultants, tracked approvals and coordinated comments, revisions and resubmissions with contractors.
• Recorded punchlist items, coordinated corrections and deadlines, followed up with contractors and joined reinspections to verify corrective work.
• Followed up delayed contractor progress payments with the client's project manager and finance department using verified billing details.
